Hi there!

My StoryTiles team and me are celebrating our 10th birthday this year! We've been baking tiles since 2013, so for over a **decade** now already... Especially in this anniversary year I often think back of how it all started: I once got a box full of **treasures** from my grandmother! She collected authentic Old Dutch tiles, and while she knew I love to work with **ceramic** materials, she wanted me to have her old tiles. So happy with that!

Once I saw all those unique and different old tiles from centuries ago, all kinds of ideas almost immediately popped up in my head. I added drawings, details and colors to existing designs, made collages of them. I wanted to make the tiles a bit more from the now. Old Dutch, but with a modern wink. You might call StoryTiles **'Dutch heritage with a twist'**.

The most important thing for me is that the tiles bring **smiles** on people's faces. With StoryTiles I wish to bring small **artworks** into homes that will hang on walls for **generations** long. All tiles tell a miniature story in an imaginative, poetic and sometimes humoristic way, to remind people of a special moment, milestone or person in their life.

"Tiles keep memories alive!"

We are lucky & grateful to have met so many tile lovers over the world... We proudly present our new collection of freshly baked tiles to you. Hope you will enjoy them!

Greetings from Amsterdam,

Marga

STORYTILES: THE BAKING OF

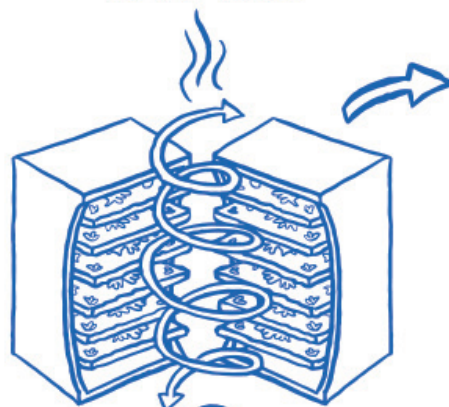

1

Stone powder & water are combined to form a smooth clay batter

2

The clay is shaped into squares and like biscuits on a baking tray they go in the oven for the first time

4

By hand and with love, each unique design is baked on the tiles

5

Our tiles are baked in traditional Dutch tile ovens, in 3 sessions from 850 °C to 1250 °C

3

A shiny layer of glaze is coated on the tile!

6

All tiles are now heat, water and cold resistant

7

Last but not least, our own hanging hook. The tile is now ready to shine on your favourite spot!

ABOUT THE ACCESSORIES

Accessorize the tiles. Make the tile an eye-catcher by framing it, give it a center stage by placing it in one of the holders, or put the tile to use as a coaster.

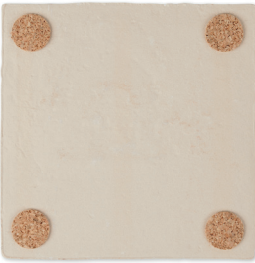

The frames and holders are made from collected oak wood found in the Dutch forests. The wood has been given a second life and is artisanally crafted into wooden frames and holders. The accessories are made to complement the characteristics of the tiles.
